- Waste management
- Litigation / Dispute Resolution
- Public Procurement Law

Background

Anna Specht-Schampera is a partner at SDZLEGAL Schindhelm and heads the Public Procurement and Waste Management Law team.

She studied law at the University of Wrocław from 1991 to 1996.

Between 1997 and 2000, she served her attorney-at-law training at the Bar Association of Attorneys-at-Law in Wałbrzych and in 2001 was registered as attorney-at-law by the Bar Association of Attorneys-at-Law in Wałbrzych.

She is a co-founder and member of the audit committee of the Public Procurement Law Association *[SPZP]*, as well as a member of the All-Poland Association of Public Procurement Consultants *[OSKZP]*. She actively acts as a legal expert for the Council of Regional Installations for the Processing of Municipal Waste *[RIPOK]*, and cooperates with the National Forum of Directors of Municipal Cleaning Plants and the Chamber of the Municipal Industry.

She lectures on postgraduate studies "Management of Municipal Waste Management" at the Faculty of Process Engineering and Environmental Protection of the Technical University of Łódź and "Public Procurement Law" at the Faculty of Law of the University of Łódź.

Author of numerous articles published, among others, in the monthly magazine "Przetargi Publiczne" and other professional journals, dealing with issues of public procurement law, waste management law and environmental protection. She conducts training courses, conferences and seminars, both in Polish and German, for economic entities and public institutions.

She is a regular collaborator of the "Przetargi Publiczne" monthly, the Abrys Sp. z o.o. company with its seat in Poznań, the publisher of the "Przegląd Komunalny" monthly and the EKORUM company, an organiser of training conferences on waste management.

Winner of numerous industry awards. Starting from 2016, for 10 consecutive years, she was distinguished in the Chambers & Partners ranking as a specialist in public procurement law.

In 2022 and 2023 she was individually recommended in the prestigious ranking of law firms The Legal 500 Europe, Middle East &

Africa in the category of Public Procurement Law.

She was ranked among the "Top 10 Most Influential Public Procurement Lawyers in Poland 2023", being recognised as one of the most influential public procurement law experts in Poland and receiving the LAWYER AWARD 2023, awarded by BUSINESS TODAY.

In 2025, the Krajowe Forum Dyrektorów Zakładów Oczyszczania Miast awarded her the Honorowy Dyplom Heraklesa for her outstanding and long-standing contribution to the creation and development of the waste management sector in Poland.

Expertise

Anna Specht-Schampera has more than 20 years of professional experience related to public procurement law, waste management and construction law.

She advises clients from the sectors on public procurement matters:

- the construction sector (road construction, rail construction, large-scale facilities), including those responsible for engineering projects and consultants;
- waste management;
- medical sector.

Supports entities intending to conclude public procurement contracts, as well as contracting authorities in the selection of the contractor, including the development of the ToR (Terms of Reference).

She specialises in arbitration proceedings before the NAC (National Appeal Chamber).

In the field of waste management, the activities of Anna Specht-Schampera concern the following, in particular:

- legal assistance in obtaining and amending the necessary permits and approvals, including those issued under the Waste Act, the Environmental Protection Act, representation before administrative authorities and courts;
- audit of administrative decisions in the field of environmental protection;
- representation of clients during inspections, in particular by the authorities of the Environmental Protection Inspectorate;
- advising on the implementation of investments involving, inter alia, the construction, expansion or modernisation of waste processing facilities, as well as in the implementation of renewable energy sources (RES) investments;
- legal assistance in the procedure for the loss of waste status and recognition of an object or substance as a by-product;
- cross-border shipments of waste;
- advising in public procurement procedures, in particular for the collection and management of municipal waste, summer and winter road cleaning, landfill reclamation, construction work on waste treatment facilities;
- preparation and negotiation of contracts for waste collection and management, including with recovery organisations;
- advice on optimisation of waste management;
- preparation of legal opinions safeguarding clients' interests;
- legal assistance in solving disputes arising from administrative proceedings;
- advising on the creation of municipal waste management systems.
