We also focus on economic supervision and economic regulation law, infrastructure projects and plant law, public construction and environmental law as well as energy law advice.

Our clients are medium-sized partnerships and corporations as well as large and listed corporations and groups. In addition to traditional commercial enterprises, we advise non-profit organisations, foundations as well as public sector companies and corporations.

Three good reasons – what sets us apart:

Your challenges are our day-to-day business. Our lawyers combine the full range of skills required to successfully implement your strategic and operational objectives.

We want to understand your business.

And make every effort to really get to know you. Our goal is to build a long-term partnership and work closely with you – side by side with your management teams.

Locally rooted, nationally and internationally networked.

At our locations, lawyers are at work who know the legal and economic particularities on site and are at home in the respective cultures. As a team, we develop solutions for you that take you further. No matter whether on the national or international stage.
